

# ParentNet® Flipcharts

A set of 6 professional flipcharts (27”x 34”) are available in a variety of configurations to suit the needs of your school. The charts are used at every ParentNet Meeting.

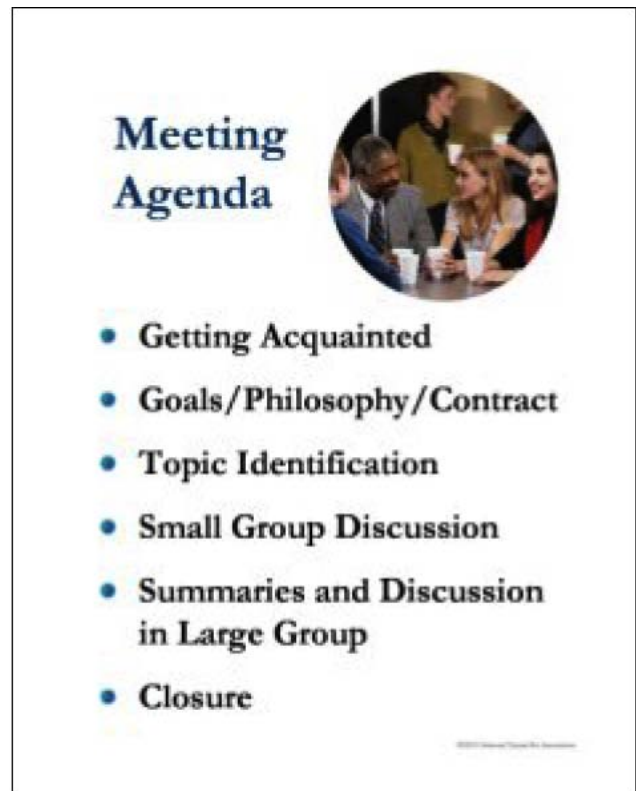

**Flexible backing:** This set of charts has a flexible plastic backing with a removable binding strip for easy page substitution and is shipped rolled in a tube. It can be attached to easels with screws or clamps. The charts can be separated for use on several easels if desired. Flipcharts are printed on durable “non-tear” paper and should last for 5-6 years of use or 100 presentations.

*removable binding*

**Rigid backing:** This set of charts has a rigid black ABS plastic backing with a removable binding strip for easy page substitution and is shipped flat. Since the backing is rigid, it will work well where it needs to stand on its own. It can be attached to easels with screws or clamps, or it can sit on the small “shelf” that is a part of many types of easels. The charts can be separated for use on several easels if desired, however only one rigid backing is included. Flipcharts are printed on durable “non-tear” paper and should last for 5-6 years of use or 100 presentations.

**Laminated :** Laminated charts can be ordered with either a flexible or rigid backing. These charts are extremely durable and will most likely last for many years of use.
